5.	At about 2 p.m. on 31 March, a column of about 35 to 40 trucks and 10 to 15 tank trucks came from the direction of Koenigsbrueck and proceeded via Lampertswalde (N 52/A 11), Schoenborn, and Weissig on the Rahn River. Most of the trucks carried 10 to 12 men, some carried luggage. Residents stated that columns have
5X1	moved in this direction
25X1 1.	Comment. Presumably, a tank unit of the 20th Gds Nech Div which returned from Ohrdruf.
25X1 2. 5X1 25X1	Comment. So far as they have been observed about 30 March, the troop novements were connected with an exercise of the 21st Gds Mech Div, reinforced by units of the 76th Arty Brig (We which started in the area north and northwest of Naumburg on 28 and 29 March and extended toward Camburg-Jena. An energy group which was apparently represented
25X1	by elements of the 57th Gds Mtz Rifle Div, was presumably employed from the are
25X1	south of Jena and Weimar against the reinforced 21st Gds Mech Div.
25X1	The other movements observed after 10 March are not believed to have been linked with this exercise.
25X1 3.	
25X14。	Comment. These movements are believed to have been linked with an exerci of the reinforced 8th Gds Mech Div held in the Koenigsbrueck-Zeithain area in late March.
